Welcome Letter

Dear Members and friends of the European Academy of Esthetic Dentistry!

It is our great pleasure to announce the 34th EAED Spring Meeting, which will be held from May 26th to May 28th, 2022 in the magnificent city of Bordeaux, capital of one of the most famous wine regions.

The subject of our meeting is Excellence in Interdisciplinary Treatment. The scientific and clinical conferences will focus on the core traditions that have made these EAED meetings so special: treatment concepts, techniques, and ultimate technologies.

Each clinician in his/her practice must be highly competent and capable of integrating his/her expertise into a team approach in order to form strong links with other disciplines and provide proper treatment. In this congress, we will have the opportunity to discuss the challenges and solutions in interdisciplinary treatments, covering all the disciplines while describing the latest conventional and digital approaches and tools.

In addition to the scientific program, we will have time to share good moments, discussions and conviviality. We have worked hard in putting together social activities that promise memorable moments in some of the most beautiful local spots. The welcome reception and the gala dinner will be held in the most unforgettable sites.

Come join us for a toast to professional development and commitment to clinical excellence.

We are looking forward to greeting you in person here in Bordeaux!

Franck Bonnet
EAED President

Irena Sailer and Ueli Grunder
Scientific Chairpersons

Alain Gracia
Local Chairman

General Information

Photo Contest

The EAED Photo Contest is well on its way to becoming a new tradition for our academy. Truly breath-taking works of high artistic merit were submitted for our past Spring Meetings in Milan, Sorrento and Munich. We are sure that Bordeaux 2022 will be no exception.

SELECTION: All submitted photos will be displayed on two Photo Terminals in the venue. Participants are invited to vote for the best photos during the official congress times. The images displayed will be identified by a number. The names of the authors will be revealed at the end of the contest.

PRIZES: The 3 best pictures will receive a recognition at the congress, while the 12 best images will be published in future issues of the International Journal of Esthetic Dentistry.

VOTING: Vote for your favourite photo via our online voting. Scan the barcode and start voting right away!

Congress Venue & Access

Palais de la Bourse
17 Place de la Bourse,
33076 Bordeaux, France

The EAED Spring Meeting will be held at one of the important historical buildings, Palais de la Bourse which is a unique and prestigious place located in the heart of the city, on the banks of the Garonne River and surrounded by many hotels, restaurants, shops.

The Palais de la Bourse, a successful example of elegant French urban architecture, was the location of the statue of King Louis XV in the 18th century. The monument was destroyed during the French Revolution and later on replaced with the statue of „Three Graces“. The buildings around the Palais de la Bourse were designed in 1739 by Jacques Gabriel and finished by his son in 1749 as premises for the Chamber of Commerce and Commercial Court.

The Palais de la Bourse has undergone significant modifications and has been repaired after fire damages in 1825. Since 2010 it houses a state-of-the-art Conference Centre, offering thoroughly modern facilities in a historic environment.

How to get there

Taxis: from Bordeaux airport. Average travel time per way: 30 minutes

Public shuttle: Airport-Station Shuttle (30 minutes) and then the Tram C direction *Bordeaux Parc des Exposition / Gare de Blanquefort* to station *Place de la Bourse* (10 minutes).

Public bus: Bus 1 to station Gambetta Meriadeck (30 minutes) then walk to the Palais de la Bourse (15 minutes)

Neoss

An introduction to Neoss® and intelligent simplicity

Founded in 2000, Neoss has revolutionised the dental implant marketplace with its innovative approach to product development. With offices around the world, Neoss has already developed an impressive reputation for its pioneering dental implants and associated components which together create aesthetic and robust prosthodontic solutions with excellent outcomes. Our results are backed up by research, and we continue to innovate and invest in the future.

How has Neoss revolutionised implant dentistry?

We were convinced that existing implant systems were too complex and so we created a much simpler solution, the NeossONE™. With one prosthetic platform, across three implant ranges, including ALL implant diameters and abutments, the NeossONE leads to excellent long-term results. This is the essence of our “intelligent simplicity” ethos. Additionally, we developed the Neoss ProActive® surface technology for our titanium implants. This hydrophilic coating readily absorbs water, promoting healing and optimising osseointegration. With a survival rate of 97.5% after five years, it delivers stable marginal bone levels and excellent primary and secondary stability. The Esthetic Healing Abutment with ScanPeg is another great example of a simple but pioneering Neoss accessory: an esthetic healing abutment with an integrated but removable scan abutment.

Why choose Neoss?

Our ‘one size fits all’ approach means fewer products and less expense, and it makes team training easier. NeossONE is conducive to an efficient workflow and importantly, is popular with team members, especially those responsible for ordering equipment and accessories as well as with dental laboratories.

We believe it’s part of our remit to help dental teams explain to patients why dental implants are the optimum aesthetic and practical solution and what makes the Neoss system a great investment. In developing smarter treatments and working closely with you, Neoss is the ultimate practice-builder partner.

Company Descriptions **Gold Partner**

Nobel Biocare

Nobel Biocare is a world leader in the field of innovative implant-based dental restorations. Our goal is to empower dental professionals to give quality of life back to their patients.

This philosophy is built on over 65 years of continuous innovation, all stemming from Per-Ingvar Brånemark's ground-breaking discovery of osseointegration in 1952. Since then, we've helped our customers treat millions of patients with our science-backed and forward-looking solutions.

Nobel Biocare supports its customers through all phases of professional development, offering world-class training and education along with practice support and patient information materials. The company is headquartered in Zurich, Switzerland. Production takes place at four sites located in the United States, Sweden and Japan. Products and services are available in over 80 countries through subsidiaries and distributors.

Our company's portfolio offers solutions from single tooth to fully edentulous indications with dental implant systems (including key brands NobelActive and NobelParallel CC, the ceramic implant NobelPearl, and NobelZygoma) a comprehensive range of high-precision individualized prosthetics and CAD/CAM systems (NobelProcera), digital solutions for treatment planning and guided surgery (NobelClinician and DTX Studio suite) as well as regenerative solutions (creos).

The Nobel Biocare N1™ system - Change the way you treat patients

Reshaping implantology in just 3 steps - Direct / Shape / Place

During the EAED Meeting, you will have the opportunity to experience the N1 system, designed for simplicity and confidence for clinicians and greater comfort for patients. More than just an implant, Nobel Biocare N1 is a fully comprehensive system of dedicated instruments, prosthetic components, and surgical protocols designed to support you at every step. Based on the latest science of osseointegration, the site preparation is performed with a low-speed instrument according to biological principles, providing an implant-specific osteotomy with maximized control. The surgical protocol assists in decision-making during site preparation.

Company Descriptions **Gold Partner**

Thommen Medical

Thommen Medical is proud that leading dentists choose to work with the Thommen Implant System, as only the best dental implant system is good enough for their patients. The Thommen Medical dental implant system is easy to use and means that first class clinical results with an excellent esthetic can be achieved. With more than 35 years of clinical experience and working in close collaboration with international leading dentists, dental technicians and well-respected academic institutions in research and development, Thommen Medical is continuing towards its objective that every patient should have access to the best dental restoration solutions available. Thommen Medical products are manufactured in its own factory in Grenchen, Switzerland, and has subsidiaries elsewhere in Switzerland, Germany and in the United States. The company is also represented by its distribution partners in France, the Benelux Countries, Croatia, Italy, Spain, Portugal, Finland, Austria, Lithuania, Latvia, Norway, Sweden, Poland, Ukraine, Czech Republic, the Russian Federation, Turkey, Australia, the Near and Middle East, Japan, South Korea, China, Taiwan, Hong Kong and Singapore.

Biotech Dental

Since its creation, Biotech Dental has become a major player on the dental implant market. Over the last 35 years, thanks to partnerships with high-technology leaders and significant investments in R&D, the Biotech Dental Group has changed from implantology specialist to digital dental practice expert with implants, aligners, photobiomodulation, CAD-CAM center, Nemotec software, Wow IOS... and is now a remarkable player on the global market.

Biotech Dental Group implants and aligners are all manufactured in our own facilities in France. The Group is proud to embody the « 100% Made in France » medical “savoir-faire”.

Forward-thinking and willing to set the new standards of dental practice, Biotech Dental board practitioners, patients and the entire industry in a brand new dimension of dental care, providing smart products and solutions through his universal digital platform, LaGalaxy. Biotech Dental provides the most innovative treatment options for the best results, definitely contributing to create a world of smiles.

The Ivoclar Group

The Ivoclar Group, headquartered in Schaan, Liechtenstein, is one of the world's leading manufacturers of integrated solutions for high-quality dental applications. The company's success is based on a comprehensive portfolio of products, systems and services, strong research and development capabilities and a clear commitment to training and further education. The group of companies, which sells its products to around 130 countries, has 47 subsidiaries and branch offices and employs roughly 3,500 people worldwide. More information about the Ivoclar Group is available at ivoclar.com.

Company Descriptions **Silver Partners**

Keystone Dental Group

Keystone Dental Group delivers advanced and easy-to-use dental implants, prosthetic solutions, biomaterials and planning software for dental professionals focused on providing the most functional and most esthetically pleasing outcomes.

We develop, acquire and commercialize oral healthcare technologies that ultimately improve a patient's treatment and quality of life. We aim to meet every clinical challenge with breakthrough comprehensive solutions that will provide a meaningful difference. From products to packaging to purchasing, we find smarter ways to simplify our customers' workflows while achieving the highest standard of care.

Our latest addition is Osteon Medical with its cutting-edge technology for implant prosthetics, not least the revolutionary Nexus iOS total solution for digital full arch restorations.

Our commitment extends beyond the sale, with excellent training, service and collaboration to grow relationships and businesses. We strive to be nimble and responsive and highly responsive to customers clinical needs.

OsteoBiol® by Tecnos

Tecnoss® is an innovative, globally active company that develops, produces and documents since over 20 years premium-quality xenogenic biomaterials by the brand OsteoBiol®. Its advanced R&D led to a patent-protected production process that ensures neutralization of antigenic components and achievement of biocompatibility, while preserving the natural collagen matrix inside the biomaterial, resulting in a dual-phase heterologous bone matrix and collagenated membranes. A comprehensive literature portfolio provides an excellent scientific background while continuous investments in new research projects are constantly extending the existing scientific and clinical knowledge on OsteoBiol® biomaterials clinical performance. OsteoBiol® products comply with highest quality standards such as ISO 13485 and Europeans laws and are CE marked by Eurofins Testing Italy srl (CE 0477). OsteoBiol®: regeneration science, inspired by nature.

Company Descriptions **Silver Partners**

SHOFU

Having started out as a manufacturer of porcelain teeth for the Japanese market 100 years ago, SHOFU has grown into a global player in the dental industry with an impressively diverse range of products.

SHOFU has been committed to close cooperation with dental teachers, researchers, opinion leaders and customers since 1922. We have supported the concept of Minimally Invasive Cosmetic Dentistry (MiCD) by developing aesthetic and functional materials, such as the Giomer class with our proprietary S-PRG filler, combining minimal invasiveness with aesthetic dentistry – for defect-oriented direct restorative therapies with integrated preventive effects.

Rotary instruments, highly aesthetic direct restorative materials, luting systems, dental ceramic systems, light-cured micro-hybrid composite systems, artificial resin teeth, CAD/CAM materials, high-tech equipment, such as the EyeSpecial dental camera: SHOFU's wide range of products reflects the whole spectrum of state-of-the-art dentistry and dental technology, offering users sophisticated products they can rely on when creating lifelike, aesthetic restorations.

ZimVie Dental

From its headquarters in Palm Beach Gardens, Florida, and additional facilities around the globe, ZimVie Dental works to improve smiles, function, and confidence in daily life by offering comprehensive tooth replacement solutions, including trusted dental implants, biomaterials, and digital workflow solutions. Welcome Reception | Château Giscours

Château Giscours, classified growth of the Margaux appellation, is located along the mythical “Route des Châteaux” in the Médoc. Since 1995, the Dutch Albada Jelgersma family is running the estate. The ambition of the new generation perfectly matches with the heritage of winemakers who turned Giscours into a worldwide renowned classified growth.

The château has a majestic setting, it appears as an ideal venue for our Welcome Reception; you will be sure to find your favourite corner in the different areas. If the weather is nice, you can enjoy a stunning view over the vineyards of Bordeaux.

A typical French welcome will await you at Bordeaux's most defining surroundings – join us for this culinary delight!

Day & Date: Thursday, May 26th

Time: 19:00 – 23:00

Ticket: included in the registration fee

Dress Code: Casual chic

Attention: mostly unpaved ground/gravel - don't bring your high heels, wear comfortable shoes instead

Access: Pre-registration is necessary. Access is granted with your name badge only! Please bring it with you as a permission voucher.

Transportation: A bus transfer will leave from the congress venue Palais de la Bourse between 18:30 and 19:00. Approximate transfer time is 45 minutes.

Return shuttle buses from: 21:30 | last bus at 23:00. Please note that buses can only depart after minimum capacity per bus has been reached.

Social Program

Returned tickets may be available on short notice, please ask at the registration desk.

Gala Dinner | Palais de la Bourse

The Gala Dinner will take place directly in the beautiful banquet hall at the Palais de la Bourse. See our place of learning transformed into a glamorous dining venue, taking full advantage of its elegant French urban architecture.

After the dinner we are ready to enjoy some music and drinks. Conclude your evening in style to round up your EAED congress experience.

Day & Date: Saturday, May 28th

Time: 19:30 Welcome Cocktail & Dinner

Dress code: Black tie

Ticket: EUR 180,00

Networking Activity

EAED 2022 Morning Run

A morning run is the ultimate “feel good” way to start your day in Bordeaux. This morning running tour is particularly suited to you, it gives you a chance to experience the beautiful city of Bordeaux waking up in the early morning – experience the sunrise.

The running route will start at the InterContinental Bordeaux - Le Grand Hotel and guides us through the city.

Day & Date: Saturday, May 28th

Time: 06:30 – 07:15

Meeting point: 6:15 outside InterContinental Bordeaux – Le Grand Hôtel

Ticket: EUR 20,00 per person incl 20% VAT

Get acquainted with Bordeaux during the morning run - the running route leads past the Grand theatre, you will pass the Jardin Public and will enjoy a stunning view over the river La Garonne on your way back to the hotel.

Distance: approx. 6,0 km

Duration: 45 min

Running pace: 6.00 min/km

Start & End: InterContinental Bordeaux – Le Grand Hôtel

2-5 Pl. de la Comédie, 3300 Bordeaux

Guided walking tour of the old city of Bordeaux

The Bordeaux region, a place of exchange and commerce for over 2,000 years since the Gallo-Romans began producing wine here, has more buildings on the national list of Historic Monuments than any other region in France outside Paris.

From the wide avenues of neo-classical neighbourhoods surrounding the Quinconces and the Grand Theatre, or the narrow lanes of the Saint-Pierre neighbourhood, this tour invites you to discover the diversity of the heritage of Bordeaux. The exemplary restorations which spread throughout the city represent the wide spectrum of Bordeaux mentalities and attest to its rich history.

Day & Date: Friday, May 27th

Time: 09:00 – 11:00

Ticket: EUR 20,00 per person

Meeting Point: Palais de la Bourse

Minimum number of participants: 10

Tours (subject to alterations)

Arcachon, between land and sea – full day tour

Discover a unique natural spot with beautiful landscapes:

Explore the area of the Winter Town (la Ville d'Hiver) in Arcachon and its remarkable villas built in the hills and heritage from the 19th century. Afterwards, you can enjoy a boat tour to get closer to the Birds' Island (l'Île aux Oiseaux), the fishermen villages of the Cap Ferret peninsula and the Arcachon's waterfront and the unavoidable cabanes tchanquées (shacks perched on stilts).

To end the day, climb on the top of the Pilat's sand Dune, the highest of Europe and look at the unfinished horizon! A place where serenity, nature and mankind are preserved: taste the Southwest "art de vivre".

This full day tour includes the following:

- Visit to Gujan-Mestras, and one of its oyster's harbour, including an oysters tasting with a glass of white wine in an oyster's grower hut
- Discover Arcachon and the area of the Winter Town
- Lunch at restaurant "La Coorniche"
(good weather option only)
- Boat tour

Day & Date: Friday, May 27th

Time: 09:00 – 18:30

Ticket: EUR 275,00 per person, incl. guide, transfer, lunch, boat tour and tasting of oysters

Meeting Point: Palais de la Bourse

Minimum/Maximum number of participants: 5

Tours (subject to alterations)

Wine and Heritage: Tour to Saint Emilion

An invitation in the heart of a prestigious vineyard combined with the discovery of Saint-Emilion, one of the most interesting towns in France because of the many old buildings confined within a very small space, and the poetic charm of its ruins.

In 1999, for the first time ever, a vineyard landscape was acknowledged as "a cultural landscape" worthy of listing as a World Heritage Site. According to UNESCO, "the Jurisdiction of Saint-Emilion is an outstanding example of an historic vineyard landscape that has survived intact and in activity to the present day."

Bordeaux' great wines will no longer have secrets for you!

Day & Date: Saturday, May 28th

Time: 09:00 – approx. 14:00

Ticket: EUR 168,00 incl. lunch per person, incl. transfer

Meeting Point: Palais de la Bourse

Minimum number of participants: 5

Tickets available upon request (first come, first serve). Please ask at the registration counter.

European Academy of Esthetic Dentistry

34th Spring Meeting

May 26-28, 2022 | Palais de la Bourse, Bordeaux – France
